Pocket Toner®

Test wires and cables for continuity, opens and short circuits.

The Pocket Toner comes in three models so no matter what your job, you can safely install and test.

- Low voltage circuit protection for both the PCB as well as the detachable toner unit
- An installer can test a (>6 v, up to 52 v) low voltage cable without causing damage to the tool
- Dual audible indicators in main body and detachable buzzer toner unit
- Male and female adaptable toner section
- Removable push-on connector
- Lightweight, durable anodized aluminum body
